

Eddie's chicks

Freya's Javan Rainforest

Silver Birch

Which Cities are on the Coast?  
 Hong Kong. Shanghai.

Name the Ocean near to China:  
 western pacific ocean

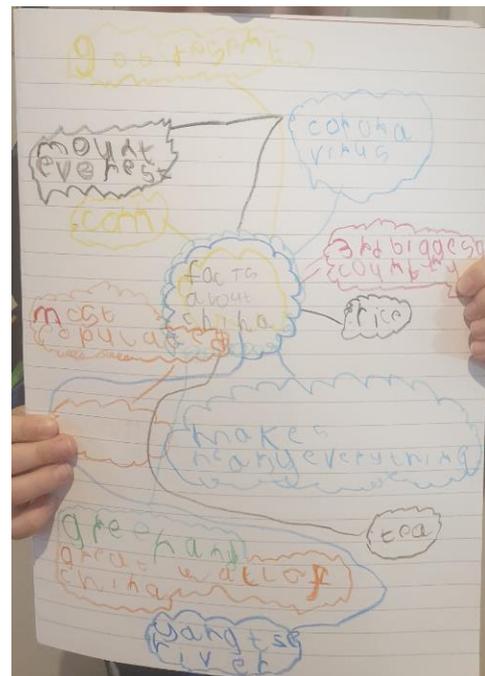

Name 2 countries which border China  
 Russia India

Nice work, Harry!

The capital of china is Beijing.  
 The Yangtze river starts Shanghai.  
 HAVIN is a city in north china.  
 cities on the coast are macao, shanghai and tianjin. the pacific ocean is closest to china. 10 countries that border china are india and ~~amster~~ Mongolia and India. we when were said covid 19 started.

Daniel's work – very good!

Love this Jasper!

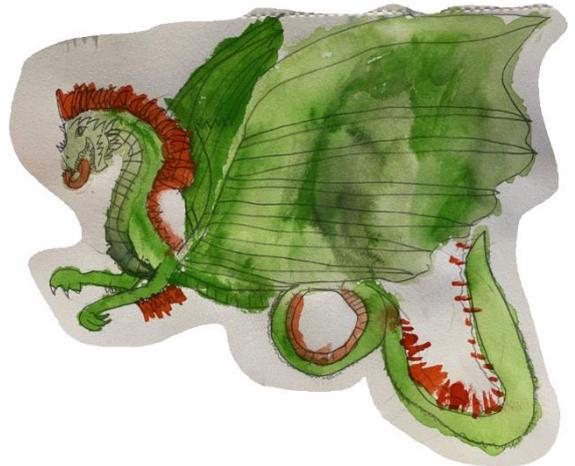

In Topic we are finding out all about China – the food they eat, their culture and the beautiful environment in which they live.

## Chestnut Class

This week we have been busy practising those times tables and written methods for multiplying 2 digit and 3 digits by 1 digit. The home learners have been busy too - Benjamin has been home cooking with Dr Rupy and sent in the dragon below and Filip has a made a rocket out of recycling!

Well done boys!

Fergus is becoming an artist – a blender in the first picture with all the fruit ready to go in and make a lovely smoothie and a rose in the second. Fabulous!

## Maple Class

Luke was 'gutted' when he couldn't complete the gargoyle he had planned in class and so he made this from salt dough and painted it at home. Very resourceful and his mum has shared the recipe, many thanks, so have a go yourselves.

2 cups plain flour

1/2 cup salt

1/2 warm water (enough to bring into a dough)

Mould it into the shape you want to make on a flour board and then into the oven on its lowest setting for 3 hours approximately or until it is solid.

Make sure it doesn't coincide with meal times!!

Brilliant use of colour here, well done to Coco for her amazing image of Brahma, Vishnu and Shiva in our home learning for RE on Hinduism in Google classroom this week.

Chloe gets a special mention for being a Super Trouper, she has completed every piece of work on Google Classroom this week and earned more than 80 dojos - well done Chloe!

### Oak Class

Oak class have been learning about equivalent fractions and how to simplify fractions by finding the highest common factor.

We have been enjoying Joe Wicks, which is keeping us active. We are learning about the value of Compassion. Sophie said, "Treat people how you want to be treated. Always be kind to people because it isn't nice to be picked on".

Noah has been making patterns using 3D shapes (see photo). Can you work out the next 4 shapes in his pattern?

*We hope to see you soon!*
